

ABC'S  
**TOP**  
PERFORMERS  
2021

# How **Safety and Technology** Strengthened the Culture and Market Value of ABC's 2021 Top Performers

Diamonds are created under enormous amounts of pressure, and the pressures of 2020 created some shining advancements in the construction industry, two of which are the always-prioritized area of workforce safety and the newest frontier of construction technology and innovation. ABC member contractors had to find new ways of doing business, working remotely, communicating regularly, managing virtually and constantly educating employees about changing safe work practices.

Many of these technologies and process changes ensured a safer, more productive jobsite and workplace for ABC's top performing companies. Some examples include digital health screening and temperature validating; wearables that ensure social distancing; geofencing; automation and robotics; optimizing prefabrication and panelization; digitizing safety inspections, audits, checklists, toolbox talks and incident reports; 5D models and 3D printing of entire projects; online communication and videoconferencing tools like Zoom, Skype and Teams; and, of course, remote collaboration.

"Construction is typically slow to adapt as an industry to technology, but COVID-19 forced us to go to areas where we are generally not comfortable," said **Kirby Wu, president of Wu & Associates Inc.** in Mount Laurel, New Jersey. Wu says his company, which works primarily on public sector works and even on projects for some Fortune 500 clients, has always had a culture of flexibility, adaptability and adjusting.

"Companies that embraced the technology change survived 2020," said Wu.

We asked a handful of our 2021 Top Performers about the safety, innovation, quality control and technology measures and practices that their companies developed or adapted in 2020 that they believe will stick in the long-term.

## Table of Contents

Top Performers Achieve Excellence in Construction	5

Top Specialty Contractors	24
Top 100 General Contractors	26
Top General Contractors Up to \$50 million	32
Top Performers With Special Designations	34
Methodology and Definitions	40
CSI Codes	42

**Sandra Roche, vice president and general counsel of Roche Constructors Inc.** in Greeley, Colorado, said her company reinvented safety practices and procedures for its teams with the primary goal—as it has always been—of "making sure our employees are safe."

"We created a pandemic procedure for jobsites, including cleaning, entering, handling, rule-following and exposure," said Roche. Her general contractor company works in approximately 22 states on commercial,

industrial and institutional projects, including massive elementary schools. The longevity factor is strong for Roche's workforce, because "our people stay."

## *What can we do that satisfies now, but can be scalable, with safety as the No. 1 focus?*

Safety, no matter the location or market, was the top priority for our top performers. **Milton Graugnard, executive vice president of Cajun Industries LLC** in Baton Rouge, Louisiana, explained that his company's clients and the industry overall demand world-class safety. Cajun, a self-performing contractor that does work in petroleum, chemical, power, marine and infrastructure markets, has used ABC's STEP Safety Management System, founded as the Safety Training Evaluation Process in 1989, for more than 25 years to create a safety culture that rivals any of those found in the industry.

"What increases Cajun's opportunities to capitalize on market swings is our investments in both workforce development and our safety processes," Graugnard said.

Tri-City Electrical Contractors Inc. in Altamonte Springs, Florida, ABC's 2020 Contractor of the Year, was another top performer to capitalize on the market swings of 2020. Implementing innovative technologies and safety practices, the diversified electrical contractor went from doing work in massive theme parks to doing more work for hospitals.

"We did not let our foot off the gas, and we shifted and reacted very quickly," said **Jack Olmstead, president of Tri-City**. "We doubled down on cultivating our people, working with our customers and communicating through new technologies."

A focus on safety and innovation helped Top Performer Gibbs Construction in New Orleans build strategies to meet the changing market needs, while keeping culture and team spirit. Gibbs Construction creates all types of buildings in the Gulf South.

"We plan our work, and we work our plan," explained **Lauren Gibbs, CEO of Gibbs Construction**. "Employees wore different hats and worked through multiple inconveniences, which speaks to the culture of working together and team spirit."

Another key strategy for implementing the right safety protocols technology was looking at the scalability factor, explained **Shane Deville, co-founder and president of TriArc Construction LLC** in Dallas.

"We asked ourselves, 'What can we do that satisfies now, but can be scalable, with safety as the No. 1 focus?'" said Deville. "We even hired an independent safety consultant to do random site visits; this practice will continue in the future."

Thanks to TriArc's strategy, Deville's expectation is to build a volume of work that reflects a 20%-25% increase over pre-COVID volume in 2019.

Through our conversations with these top-performing companies, it was apparent that safety and technology helped define their successes in 2020: They were quick to adapt to changing market needs, while simultaneously protecting their most valuable asset—their people—ensuring they continued to win and deliver work.

# ABC's Top Performers Achieve Excellence in Construction

What defines the best of the best? ABC's Top Performers lists—the only rankings of their kind—recognize member contractors' achievements in safety, quality, diversity, project excellence and special designations, ranked by work hours.

The listings highlight contractors that were awarded national Excellence in Construction,<sup>®</sup> Safety Excellence and Diversity Excellence awards in 2020; and those that hold designations awarded to diverse companies to help procure work from government and private entities. All Top Performers must demonstrate world-class safety performance by achieving Gold status or higher in ABC's STEP Safety Management System in 2020.

The separate lists identify the Top 200 Performers, Top Trade Contractors, Top Electrical Contractors, Top Plumbing/HVAC Contractors, Top Specialty Contractors, Top 100 General Contractors and Top General Contractors Up to \$50 million, all of which have earned the elite Accredited Quality Contractor credential. The Top Performers With Special Designations hold one or more special designations. The companies are ranked by size based on the number of hours worked in 2019 as reported in their 2020 STEP applications.

[abc.org/step](http://abc.org/step)

ABC STEP members certify that:

- Their leadership is committed to world-class safety;
- Their culture is focused on preventing incidents from happening; and
- They deploy industry best practices in 25 key components of the Safety Management System, such as new hire safety orientations, toolbox safety meetings and substance abuse programs.

STEP Diamond members are an average of 655% safer than the U.S. Bureau of Labor Statistics industry average, according to the ABC 2021 Safety Performance Report.\* STEP Platinum members are 242% safer, and Gold members are 224% safer.

*\*[abc.org/spr](http://abc.org/spr)*

[abc.org/aqc](http://abc.org/aqc)

ABC members that have earned the Accredited Quality Contractors credential certify their commitment to:

- The highest levels of quality construction;
- Financial fitness—capable, bondable and insurable to deliver the work they pursue;
- World-class safety—all AQC contractors achieve STEP Gold, Platinum or Diamond status;
- Workforce development, talent management, and inclusion, diversity and equity; and
- The betterment of the communities in which they work.

# SANDRA ROCHE **ROCHE CONSTRUCTORS INC.**

Elbert Edwards Elementary School Replacement, Las Vegas

“As we look back on 2020 and begin our 50<sup>th</sup> year in business, one of Roche’s biggest accomplishments as a company was adapting to the many changes in our world. We worked together to overcome the challenges that COVID-19 presented, on and off our jobsites. We expanded on lessons learned to reinvent safe practices and procedures for our teams. Our primary goal is now, and has always been, making sure our employees are safe. This year is proving to be a more challenging year for construction due to what happened in 2020; we are living in unprecedented times. We follow construction trends and adapt quickly so that we can make every year successful. Through it all, we remain resilient. It is our attitude, not our circumstances, that make us successful, even in the most unlikely of conditions. Even during a pandemic, this is an opportunity for growth for Roche and for our industry because of what construction does for our economy and our communities.”

# JACK A. OLMSTEAD TRI-CITY ELECTRICAL CONTRACTORS INC.

Dr. Phillips Performing Arts Center, Orlando, Florida

“Thanks to Tri-City’s diversified portfolio, business is good. During the downturn of 2020, we were able to shift our focus and react to the changing market needs quickly. Tri-City went from doing work in massive theme parks to doing more work for hospitals and health care systems. We did not take our foot of the gas when it came to cultivating our people, working with our customers, communicating through new technologies and implementing additional safety measures. This year will be a good year; it will be a downsized year, but it will be a good year. I cannot wait to see what our industry will do in the next ten years.”

Texas Rangers Ballpark Complex, Arlington, Texas

"We believe that no one needs to be a lone ranger or do a job alone; constant discussion and idea-bouncing are keys to success at Haley-Greer. We have been in business a long time, and communication has always been a priority; 2020 reinforced that. While private development and commercial work is slow to move forward right now, we have hope and faith that the trajectory will change, because we are a country that bounces back. We will in this instance, too."

*Tish Barker, President, Haley-Greer Inc.  
Private Commercial Contractor | Dallas  
ABC member since 2005*

## SHANE DEVILLE TRIARC CONSTRUCTION LLC

Shane Deville, Co-founder and President, TriArc Construction, Dallas

“TriArc does work in many areas of commercial construction, so 2020 was about refining roles and responsibilities. When the pandemic hit, we went from scalability to preservation mode, implementing more quality control measures and placing a strong focus on communications with our trade partners. We asked the question, ‘What can we do that satisfies now but can be scalable?’ with safety as the No.1 focus. We even hired an independent safety consultant to do random site visits; this practice will continue in the future. Thanks to these keys to performance, our expectation is to build a volume of work that reflects a 20%-25% increase over pre-COVID volume in 2019. TriArc will work with ABC to find and educate skilled craft professionals so that our talent pipeline is robust and cultivate more vibrant relationships with trade partners.”

## ABC's Construction Backlog Indicator and Construction Confidence Index, 2012-2020

ABC provides contractors with market insights through CBI, the only economic indicator that reflects the amount of work that will be performed by commercial and industrial construction contractors in the months ahead, and CCI, a diffusion index that signals construction contractors' expectations for sales, profit margins and staffing levels over the next six months.

©Associated Builders and Contractors, Construction Backlog Indicator, Construction Confidence Index

LAUREN GIBBS **GIBBS CONSTRUCTION**

2424 Tulane Ave. Apartments, New Orleans

“At Gibbs, we plan our work, and we work our plan. If you do not have a Plan A, you definitely do not have a Plan B. We find we have better results when we start with a plan. We chose to be financially conservative, focus on team culture and produce quality work so that we could survive a year like 2020.”

Gibbs and the market are hungry for recovery; it will take a little bit of patience, but I think things will start looking up in the second half of 2021. ‘Keep the faith,’ as we say in New Orleans.”

Kirby Wu, President, Wu &amp; Associates, Mount Laurel, New Jersey

“The ability to be adaptable was key in 2020. It is a good thing that the culture at Wu & Associates always included flexibility, adaptability and adjusting. We had to find a new way of doing business, working remotely, communicating regularly, virtual management and constantly educating employees about changing safe work practices. Fortunately, 2021 is off to a good start for us, as we have secured a good amount of backlog even during a pandemic; we are booked out through the third quarter. Construction is typically slow to adapt as an industry to technology, but COVID-19 forced us to go to areas where we are generally not comfortable. Companies that embraced the technology change survived 2020. At Wu & Associates, we hope to expand internationally, and the technologies we have used in the past year will make that goal more achievable.”

*Kirby Wu, President, Wu & Associates Inc.*

*General Contractor | Mount Laurel, New Jersey | ABC member since 1998*

ExxonMobil Dock 5 Retro Fit Project, Port Allen, Louisiana and Baytown, Texas

“As a self-performing contractor that does work in petroleum, chemical, power, marine and infrastructure markets, we at Cajun see increasing opportunities towards the end of 2021, the beginning of 2022 and beyond. Much of that work will depend on getting a handle on COVID-19, which would normalize global market demands and how the current administration’s policies will affect our markets. This industry cycles, pandemic or not, and construction is a very vibrant industry to work in with quick downturns and long-lasting upswings. Currently, we are in a downturn, but we believe it will begin to reverse within the next 12 months. What increases Cajun’s opportunities to capitalize on market swings is our investments in both workforce development and our safety processes. When we moved into the industrial private market some 25 years ago or so, we were not considered a Diamond STEP recipient. Our clients and the industry in which we work demand world-class safety processes. We used the STEP process to enhance the areas that needed improvement to create a safety culture that rivals any of those found in the industry. I strongly encourage those who want to improve their safety culture, wherever they find themselves on their safety journey, to adopt the STEP process.”

*Milton Graugnard, Executive Vice President, Cajun Industries LLC  
Private Industrial Services Contractor | Baton Rouge, Louisiana  
ABC member since 1973*

### Excellence in Construction Awards Honor \$10.8B in Projects Across the Country

Each year, ABC recognizes the best merit shop construction projects and contractors at the Excellence in Construction® Awards. From emergency COVID-19 health care facilities and U.S. embassies to military command vessels and baseball stadiums, ABC members built more than 150,000 square feet of award-winning space covering almost 700,000 acres. In 2020, nearly 90 projects were awarded for national honors based on complexity, attractiveness, unique challenges, completion time, workmanship, innovation, safety and cost.

[abc.org/eic](http://abc.org/eic)

# Methodology and Definitions

## ABC's Top Performers

ABC's Top Performers is a list of contractor members that achieved ABC STEP Gold status or higher (based on 2019 safety data) and earned ABC's AQC credential in 2020. ABC member companies are ranked No. 1 to 200 based on work hours reported on their 2020 STEP applications. Additional lists identify the Top Trade Contractors, Top Electrical Contractors, Top Plumbing/HVAC Contractors, Top Specialty Contractors, Top 100 General Contractors and Top General Contractors Up to \$50 million. Companies are recognized for National Excellence in Construction,<sup>®</sup> National Safety Excellence and National Diversity Excellence awards received in 2020. Designations are listed as reported on FindContractors.com as of Oct. 30, 2020. Companies that had a safety-related fatality in 2020 are not included in the Top Performers lists.

## ABC's Top Performers With Special Designations

This list highlights ABC contractor members that achieved STEP Gold status or higher in 2020 and hold one or more special designations, ranked by work hours. Companies that had a safety-related fatality in 2020 are not included in the Top Performers lists.

**8A** An 8(a) Business is a small business at least 51% owned and controlled by socially and economically disadvantaged individuals, as certified by the U.S. Small Business Administration.

**DBE** A Disadvantaged Business Enterprise is a for-profit small business where socially and economically disadvantaged individuals own at least 51% of the firm and control management and daily business operations, as certified by the U.S. Department of Transportation.

**HZB** A HUBZone Business operates and employs people in historically underutilized business zones, as certified by the U.S. Small Business Administration.

**LGBTBE** An LGBT Business Enterprise is a business that is at least 51% owned and operated by LGBT individuals, as certified by the National LGBT Chamber of Commerce.

**MBE** A Minority Business Enterprise is at least 51% owned or controlled by minority individuals, as certified by the National Minority Supplier Development Council.

**SBE** A Small Business Enterprise is a small business as defined and certified by the U.S. Small Business Administration.

**SDB** A Small Disadvantaged Business is a small business in its primary industry and not less than 51% unconditionally and directly owned and controlled by one or more socially disadvantaged individuals who are U.S. citizens and are economically disadvantaged, as certified by the U.S. Small Business Administration.

**SDVOSB** A Service-disabled Veteran-owned Small Business is at least 51% owned and controlled by a service-disabled veteran, with the daily management operations controlled by a service-disabled veteran or caregiver, as certified by the U.S. Department of Veterans Affairs.

**VOSB** A Veteran-owned Small Business is at least 51% owned and controlled by a veteran, with the daily management operations also controlled by a veteran, as certified by the U.S. Department of Veterans Affairs.

**WBE** A Women's Business Enterprise is at least 51% owned or controlled by one or more women who are U.S. citizens or legal residents, as certified by the Women's Business Enterprise National Council.

**WOSB** A Women-owned Small Business is at least 51% owned or controlled by one or more women who are U.S. citizens, as certified by the U.S. Small Business Administration or a third-party certification from the El Paso Hispanic Chamber of Commerce, National Women Business Owners Corporation, U.S. Women's Chamber of Commerce or Women's Business Enterprise National Council.

**EDWOSB** An Economically Disadvantaged Women-owned Small Business is at least 51% owned and controlled by one or more women who are U.S. citizens and who are economically disadvantaged, as certified by the U.S. Small Business Administration.

**CBE (DC)** A Certified Business Enterprise is a business that receives preference in procurement opportunities offered by the District of Columbia government.

**WMBE (Seattle)** A Woman- and Minority-owned Business is a business that is at least 51% owned by women and/or minorities, as certified by the state of Washington or self-identified.

**DBE (Maryland)** A Disadvantaged Business Enterprise is a for-profit small business where socially and economically disadvantaged individuals own at least 51% of the firm and control management and daily business operations, as certified by the Maryland Department of Transportation.

**DVBE (California)** A Disabled Veteran Business Enterprise is a business that is at least 51% owned by one or more disabled veterans, as certified by the California Office of Small Business and DVBE Services.

**JSEB (Jacksonville, Florida)** A Jacksonville Small and Emerging Business is a small business located in Duval County, Florida, as certified by the city of Jacksonville, Florida.

**SCS (King County, Washington state)** A Small Contractor and Supplier business is a small business as defined and certified by King County in Washington state.

**LBE (California)** A Local Business Enterprise is a business with its primary place of business in San Francisco, as certified by the San Francisco Contract Monitoring Division.

**LDBE (Metro Washington, D.C.)** A Local Disadvantaged Business Enterprise is defined as a small business concern which is organized for profit and located within a 100-mile radius of Washington, D.C., and is eligible to bid on Metropolitan Washington Airports Authority projects with LDBE requirements.

**D ABC National Diversity Excellence Awards**

The annual ABC National Diversity Excellence Awards recognize members that display exemplary diversity leadership in their workforce, supply chain and community with best-in-class recruitment policies, retention practices, and training and mentoring programs.

**NSEA ABC National Safety Excellence Awards**

ABC annually honors members that have created a world-class safety management system, demonstrate an uncompromising commitment to safety and share ABC's goal of achieving zero-incident construction jobsites. National Safety Excellence Award winners are selected based on STEP self-evaluation scores, lost workday case rates, total recordable incident rates, leading indicator use, and process and program innovations. Only STEP Gold, Platinum and Diamond members are eligible to apply.

**EIC Excellence in Construction® Awards**

ABC's Excellence in Construction Awards program is the industry's leading competition honoring general and specialty contractors for innovative and high-quality merit shop construction projects. The winning projects, selected from entries submitted from across the nation, are judged on complexity, attractiveness, unique challenges overcome, completion time, workmanship, innovation, safety and cost.
