Local Company Expands Service to Marcellus Shale Region Lock-Haven-based Hanna Electric Joins the Tri-M Group

Kennett Square, PA (February 1, 2012) – The Tri-M Group, an electric solutions provider known for quality, engineering savvy and its top safety record, announced today their expansion into the Marcellus Shale region with the acquisition of the Lock Haven-based Hanna Electric.

“We are excited to welcome Hanna Electric to the Tri-M family,” said Jim Horn, President and CEO of Tri-M Group. “Our team is now nearly 500 employees strong – and growing – which allows us to provide safe and successful solutions to a growing base of customers in the Marcellus Shale region.”

For nearly 50 years, quality-conscious companies have turned to the Tri-M Group when they have complex electrical projects that must be done impeccably and on budget. Hanna Electric brings the same meticulous attention to detail and willingness to make the extra effort for their customers.

“We are thrilled to be part of the Tri-M team,” said James Hanna, President of Hanna Electric. “Tri-M’s commitment to quality and safety aligns with the values we’ve instilled in our employees for the past 30 years. We are excited to strengthen our service offering, while continuing to provide the outstanding service that our customers have come to expect.”

With a focus on total electrical solutions, the Tri-M/Hanna Electric team takes a comprehensive approach to their customers’ needs through six complete service offerings: Electrical Construction, Renewable Energy, Medium High Voltage, Facilities Automation, Network Communications, and Security.

About The Tri-M Group, LLC: Total Electrical Solutions. One Trusted Partner.

Founded nearly fifty years ago, **The Tri-M Group, LLC** is an electrical solutions company that provides services for the design, installation, maintenance and servicing of its clients’ power, building controls, security and data systems. Electrical testing and predictive services are provided through Tri-M’s subsidiary, **EnerG Test, LLC**.

With Tri-M Group, there are no compromises: the work is done right, on budget and made to last. For more information on total electrical solutions, please visit www.tri-mgroup.com.
